

7 Innovative Beauty Treatments You're Going To Want To Try In 2017

3.20.17

7. Fillerina

If a needle to the face doesn't sound like your kind of jam, Fillerina, an alternative to injections saves the day. A topical filler gel, Fillerina Lip Plumping Pens are a form of skin-boosting, using six different sized hyaluronic acid molecules to travel through layers of the skin.

"It is a two-fold, for reducing wrinkle depth and boosting new volume to cheekbones and lips," says **Fillerina USA Director of Education Melissa Peverini**. "Since it is a high concentration of hyaluronic acid, it is also very hydrating to the overall skin." From the comforts of your home, you can apply the topical treatment yourself with a such a user-friendly tool.

It may cost a pretty penny to have a specialist poke tiny holes in your skin or draw on a fresh set of bold brows, but book an appointment for any number of these innovative treatments and prepare to have your mind blown.
